ScreenCheck INDIA is a leading security solutions provider in INDIA and the whole of the Indian subcontinent. Our presence is evident in all the major cities in INDIA. ScreenCheck INDIA focuses on the upliftment of society with innovative technology solutions that streamlines people's life.

ScreenCheck INDIA, a division of the Centena Group, provides end-to-end solutions in identification, biometrics, security, and tracking in all the major cities across the country. Our company distributes the world's leading brands and offers end-to-end solutions in ID Card Issuance, Time & Attendance, Access Control, Video Surveillance, Smart Card Solutions, RFID, and other areas. Our products and solutions serve the government, corporate, educational, manufacturing, oil and gas, retail, and other industries.

Apart from a biometric attendance system, Our arsenal also has people counting machines, ID card printers, passport scanners, RFID readers and antennas. On the whole, we have a wide range of digitized security solutions for enterprises of all sizes.

Winning customers love providing top-end delivery options made ScreenCheck one of the leading companies in India in terms of growth, Innovation and Human Capital. Our global domain expertise and local market knowledge, over the years, made ScreenCheck the most preferred Identification and Security partner in the region.
